## Candidate for the European Parliament

### *My commitment to international development*

If I am elected to the European Parliament, I pledge to work to ensure that:

- The EU focuses on democratic accountability by strengthening civil society to fully participate in the building of democratic governance.
- The EU plays a leading role internationally by reducing greenhouse gas emissions by at least 30% by 2020 and at least 80% by 2050 (both compared to 1990 levels), and contributes to adaptation efforts in developing countries with additional resources.
- The EU respects the right of developing countries to determine their own development paths, including economic, trade, social and environmental policies.
- The EU prioritises its actions in areas that are key to the achievement of the Millennium Development Goals (MDGs), such as gender equality, food security, access for all to basic social services including health, education and social protection, especially for the most vulnerable.
- The EU reaches the agreed target of 0.7% Gross National Income for Official Development Assistance by 2015 or sooner.
